למזכי הרבים

Dear fathers and **מזכי הרבים** - We have about 60 children learning regularly at BTYA's Avos Ubanim program.

This translates into about **100 people** spending an hour of quality father/son Torah learning every Shabbos.

We have been rewarding the children with treats and useful age appropriate seforim for raffle prizes.

These incentives help motivate the children to come often (and bring their fathers along). To keep the program running smoothly, we need YOUR help. Please see **Mutti Frankel** - even on Shabbos - to pledge your sponsorship of one Shabbos (or more) of AUB learning for 100 NIS.

Pledges can be dedicated to **לרפואה שלמה, לעילוי נשמת**, **להצלתה רבה**, or simply **לזיכוי הרבים**.

THANK YOU IN ADVANCE and לתזכו למצוות!

Pre Shavuos Melave Malka

SAVE THE DATE!!!
PREPARE FOR SHAVUOS and MATTAN TORAH

There will be an inspiring Melava Malka on the Motzei Shabbos before Shavuos (yes, in 2 weeks). Save the date in your calendars!

- Hear inspiring words from local learners
- Enjoy a surprise major-league guest speaker
- Be the first to hear about a brand-new Shiur, sure to be a mass hit!

The event is brought to you by Torah Programming of BTYA.

This is the Torah Programming yearly Melava Malka. Your attendance is a sign that you appreciate the tremendous growth and סייעתא דשמיא that our Torah learning has enjoyed.

Frequently Asked Questions

about the Building

Now that this stage of the project is nearing completion, it's time to answer some of the most frequently asked questions. But, first, hats off to our "achsanya..."

This project was made possible through the efforts and generosity of many people, first and foremost the generous benefactor who created the Matching Grant program, and then to so many of you, our members and friends who accepted the challenge. **י"ישר כחכם!**

Q: Why are there different kinds of lights in the ceiling?

A: There are 4 different kinds of lights, per the specifications of our lighting engineer:

- Metal halide (square) - in the perimeter of the ceiling. As these are on the perimeter, they cast a little light, but are more for design. These are the lights that used to be in the center of the Beis Medrash.
- Metal halide (small, round) - the main source of lighting.
- Fluorescent (round) - These lights are dual purpose, turning on automatically when there is a power failure.
- Spot light - to enhance the Aron Kodesh

Q: There are a number of things that seem like they should have been done while the scaffolding is here, like painting the walls, fixing the windows, and more?

A: We had budget constraints, and we had to choose the most pressing issues first. The acoustics in the Beis Medrash have been **vastly** improved, and the women can hear much better, too!

PS—LAST Thursday night, several people DID take advantage of the scaffolding to clean all the windows, remove cobwebs, clean the mechitza glass, remove tape, etc. Thank you to:

Ezras Nashim Enhancements

Despite the potential savings of doing work in the Ezras Nashim while the crew was still here, we have decided to consider very carefully the results of the Ezras Nashim survey before doing more work there.

Some suggestions from the survey have already been acted upon, and many, many others are being weighed, considered, and planned.

We truly appreciate the input, and we look forward to continuing to work on this together, to be able to best fulfill your needs. We hope to be able to update you with good news!

Speaking of the Survey...

In the recent "Ezras Nashim Enhancement Survey," we were asked why it is that we need the curtain that covers the top part of the Mechitzah.

There are two curtains to which this question could be referring:

The thick curtain that is above only the center mechitzah—This curtain was put up because the lights in the center of the ceiling were very bright, and some said they made it uncomfortable to see. Those lights have been moved, and the curtain has been removed.

The lace curtain that covers the glass of the Mechitzah—We would indeed, prefer NOT to need it, but one sees a clear reflection in the Mechitzah when looking at it, and it is assur to daven the silent "Sh'moneh Esrei" while looking at this reflection.

Thus, before the silent Sh'moneh Esrei, the curtains should be drawn to cover the Mechitzah. The curtains can be re-opened right before Kedusha.

We are looking into better options.
