בשבת והודיה לה'...

The work in the Beis Medrash is well under way! See page 2 for the nitty gritty.

There will be SIGNIFICANT MESS in the Beis Medrash this coming week. Please remove ALL personal items, Seforim included.

- All tefillos and learning will continue to take place in the Ulam EXCEPT for Monday night and Tuesday night when learning and other tefillos will take place in the Ezras Nashim and Vasikin room.
- The Vasikin minyan will daven in the Vasikin room.

We appreciate the ease with which everyone is accepting the temporary relocation.

Schedule Changes

This coming week is the last week for the 8:00 ma'ariv for this season.

Starting the Sunday after, the first ma'ariv will be at 8:40 and will remain so until mid-August.

Everything You Wanted to Know About the Work in the Beis Medrash

We had multiple goals going into this project:

- To make the Beis Medrash more conducive to learning, by reducing the amount of sound that was bouncing (reverberating) all over.
- To increase the ability to hear the Rav and the Shaliach Tzibbur throughout the building, including the Ezras Nashim.
- To move our מדרש בית מדרש one step further towards reflecting the amount of the תורה that is currently be, and that will be, אי"ה learned there on a daily basis.

We hired an acoustical engineer to help us design the correct way to reach these seemingly contradictory goals.

Part A, over the ארון קודש will be covered with gevess (sheetrock tiles), a material that bounces sound back. Together with the current ceiling, as well as some other changes that we have made, this should help to drive sound back throughout the Beis Medrash and back to the Ezras Nashim.

Part B will be made of acoustic materials that absorb sound. This should help to greatly reduce the echo that resonates throughout the Beis Medrash. Those of you who have been learning in the Ulam this week have probably noticed the difference in the way sound is reflected in that room. We aim to recreate that feeling, yet to also retain the קול תורה.

Continued

In addition, we are constructing an acoustically absorptive area, on the back wall that sits under the mechtiza (where the clock used to hang). This wall will contain fiberglass batting, which, when covered by a decorative gevess cover, will trap echo inside.

Our lighting engineer has designed a plan to light up the Beis Medrash in a way that is both functional and beautiful. Our electrician has been busy wiring up the ceiling to support this plan.

Finally, we intend to repaint the ceiling and maybe to add a few more hidden perks. And remember, we couldn't undertake this project without YOUR HELP...ישיב נחכם!

The Ezras Nashim Project

We would like to continue the momentum and enhance the Ezras Nashim while the workers are here. Here are some things we have planned.

- Additional lights
- Painting and filling the holes in the ceiling
- Fixing the windows and sills so they don't leak
- Adding a marble border around the perimeter of the mechtizah
- Upgrading the curtains and the tablecloths.

WOMEN—if you have suggestions,

please speak to Dr. Ari Stern or Aryeh Sonnenberg immediately, EVEN ON SHABBOS!

We still need about 20 more partners to make these plans come true, and time is running short. Pledge now, and we will turn your pledge into reality, IY"H. 360 NIS, or part thereof...Every part counts.

Aron Kodesh Dedication Opportunity

The portable ארון קודש, which we are using this שבת, is available for dedication (\$5,000).

The ארון is available for בתי אבל and has most recently been used for the 2nd-day minyanim over Pesach.

For dedication opportunities, contact Aryeh Sonnenberg.
