

Here Comes the Sun

We have been working hard to stabilize and strengthen the shul's financial position. One of our largest expenses is electricity, which costs us in excess of NIS 100,000 each year. It has been a dream to install a solar array to defray these costs. Thanks to a very generous loan from a member of our BTYA community, that dream is now becoming a reality. Over the next couple of weeks, we will be installing a 32 kilowatt solar array atop our building. We anticipate the installation will reduce our electrical expenses by about 30% every year, for decades to come (IY"H)! (Continued on page 2)

The lender has requested anonymity, but his very substantial loan, and his allowing us to start repaying it only in 2019 once the shul has retired many of the loans taken to finance the building's original construction, are deeply appreciated by all of us! Whoever he is, please have him and his family in mind when you mention "מי פרקן" after שנותנים נר למאור in the weekly
